

AL100-DE

EXTERIOR HITCH MOUNT PLATFORM LIFT

Easy, one switch operation

Illuminated license plate holder

Hold-down foot

3-RAIL SCOOTER LIFT

The AL100-DE is a dual-entry, three rail scooter lift compatible with both 3 and 4-wheel small to mid-size scooters.

The lift features an integrated automatic scooter hold-down foot, designed to provide a secure self-locking mechanism for compatible mobility scooters. The hitch-based installation requires little to no modification to your vehicle or mobility device and allows for easy removal. The lift is supplied with wheel chocks to help with scooter positioning.
